**Item 8.01 Other Events- COVID-19 Reporting Exemption**

Golden Bull Limited (the “Company”) is filing this Report on Form 6-K pursuant to an order under Section 36 of the Securities Exchange Act of 1934 modifying exemptions from the reporting and proxy delivery requirements for public companies (SEC Release No.34-88465 / March 25, 2020). The outbreak of the COVID-19 pandemic in mainland China greatly affected our operations and the preparation for and the actual audit of our financial statements for the year ended December 31, 2019. Commencing with the outbreak in December, it was difficult for our employees to resume work at our corporate office in Shanghai. All of our employees were asked to work from home. Some of our employees began to return to work in our office in early March. The preparation of audit materials was significantly delayed. Our auditors were initially scheduled to perform an 11-day field work starting on March 2, 2020. However, due to the delay of preparing audit materials and travel restrictions in Beijing and Shanghai, field work was delayed and rescheduled. The Company estimates that it will be able to file its Annual Report on Form 20-F on or before June 14, 2020. The Statement for Audit Work Delay signed by the Company’s auditors stating the specific reasons why such firm is unable to furnish their audit report on or before the due date of the Company’s Annual Report is attached hereto as Exhibit 99.1.

**Risk Factors**

*We are subject to various risks due to the coronavirus which have materially and adversely affected our operations and our business and financial condition.*

We believe that our results of operations, business and financial condition have been and will continue to be adversely affected by the outbreak of COVID-19 in China. While the World Health Organization declared the outbreak a “Public Health Emergency of International Concern” on January 30, 2020, our operations were adversely affected since the outbreak in China in December 2019. Substantially all of our operations, including all of our employees and customers are in China. All of our employees were asked to work at home and did not begin to return to work until early March 2020.

Our operations were adversely affected by the following risks, among others: travel restrictions on our employees, customers and vendors; shortage of automobiles to lease; assorted logistics delays; liquidity issues; business operations disruptions; and the general economic downturn in the economy as a result of quarantined persons.

While the Chinese economy is slowly recovering, the duration of any economic downturn resulting from COVID-19 is uncertain. The full extent to which COVID-19 will impact our financial results and business condition will depend on future developments which cannot be predicted.
